TO WHOM IT MAY CONCERN

Ray Hatch worked as Site Manager on the demolition of two gasholders (91.4 x 73.2 metres diameter and 61.6 x 45.7 metres high respectively) at the AGL gasworks site at Mortlake.

Ray was responsible for determining the method of removing the gasholders and maintaining safety standards.

The work was completed well within the contracted program time. I found Ray to be very competent, and good working relationships were maintained with all AGL staff. I would recommend him for future demolition work.

A handwritten signature in black ink, appearing to read 'T. Gorey', written in a cursive style.
