To Whom It May Concern

REF: Raymond Hatch Contracting  
of New Zealand

Please accept this letter to confirm that Raymond Hatch Contracting of New Zealand did sub-contract to Mackenzie Salvage at the A.G.LQ Site, Sydney.

Contract commencing 20/1/93 and terminating 18/6/93, to dismantle two large Gas-holders.

Ray carried out his tasks to his usual impeccable standards and completed the job in a most satisfactory manner.

I would not hesitate in recommending Ray to any person for any task in his field, being Marine Salvage, Demolition, and Scrap Processing.

A handwritten signature in black ink, appearing to read "Trevor Mackenzie", with a horizontal line drawn through it.

Trevor Mackenzie.
