To whom it may concern,

Ray Hatch has worked for T & T Metal & Demolition Services in the position of Project Supervisor on our Christmas Island Contract in Western Australia for 18 months. The Contract involving: complete demolition of an above ground mine site; buildings; railway bridges & system; railway engines; a dozen bulk fuel storage tanks; processing & steel cutting; and finally loading of all materials salvaged onto a 5000 tonne barge. Ray is a hands on person and performed the Contract in a very professional manner, his honesty and integrity in performing his duties were regarded by everyone on the island to be of the highest esteem. The Contract had a NIL Accident record. I would recommend Ray Hatch to any company that he may apply to, and would be only too pleased to supply our company as a reference.

For any further information, please contact Bill Robinson on 02 4276 4099 or John Chung on 02 9517 1160.

Regards

BILL ROBINSON  
Company Director
